

# High

## Capture the Crown

I can't let the fear of falling keep me from flying  
I didn't grow these wings overnight I can't deny it  
There's a love-hate relationship with the clouds above

They said the sky's the limit but the limit isn't enough  
Trying to get to heaven but I can't find the entrance  
The searching is endless

I wanna be free, I wanna let go  
Of the secrets I keep, let everyone know  
What you see is what you get, this isn't a show  
There's a difference

I wanna be high  
One with the sky

You don't grow these wings overnight  
I don't get to hold rest of my life  
Two [?] get lost in my mind  
Don't let fears still keep me from flying  
So hands up [?] eyes closed  
But with the sky your highs no lows  
If I wanna be free I guess it's up to me  
If it's the truth then tell me what you know

I wanna be free, I wanna let go  
Of the secrets I keep, let everyone know  
What you see is what you get, this isn't a show  
There's a difference

I wanna be high  
One with the sky  
I wanna feel weightless, faultless  
And open in this space  
I wanna feel weightless  
So take me from this place  
And fly free

Fly free, fly free

I wanna be high  
One with the sky

I wanna be high  
One with the sky  
Faultless  
And open in this space  
So take me from this place  
And fly free  
I wanna fly free
