

## Devil's Pride

Keith Caputo

Spring time turn upon ourselves  
Down the tracks down the road  
Changed my heart, broke us apart  
I'm finally free, I'm finally free

You'll never know the hurt I suffered  
Fucker you'll never know (4x)

Cover up the truth with your lies  
The hurt I suffered kiss goodbye  
I'm someone else is what I'm told  
To each his own, to each his own

Leaving, I'll be on my way  
Just know you're not alone  
Leaving, it's so hard to do  
Wrapped up in your arms

You'll never know the hurt I suffered  
Fucker you'll never know (4x)

Dogs run free don't you breathe it  
Then what must be then what must be  
You'll never know the hurt i suffered

Leaving, I'll be on my way  
Just know you're not alone  
Leaving, it's so hard to do  
Wrapped up in your arms

You'll never know the hurt I suffered  
Fucker you'll never know (8x)
