

Got Monsters

Keith Caputo

I got monsters
How bout you
Was born a monster
Do you hide your monsters too
Now everybody else in here
What has become of you
I've got monsters
How about you
We got monsters
We suffer like the rest
Man I don't know and I don't care
What a lovely home we shared
What a tangled web we have weaved
Now everybody else in here
What has become of you
I've got monsters
How about you
Now everybody else in here
What has become of you
I tiptoed up to my daughter's room
And I saw her monsters too
I've got monsters
How about you
Yes I've got monsters too
Yes I've got monsters too
Yes I've got monsters too
