

Love Me Too Much

Car Seat Headrest

Love me too much
Give me your touch
I know it's not good for me
But baby, your touch is all I need
So please give what I need to live
Your love

Love me, love me too much

It seems so wrong
Love me too strong
Although you hurt me so bad
You're the only love I've ever had
So I forgive, 'cause what I need to live
Is your love

Sometimes you get me into trouble
But the only one who can save me is you
Sometimes I want to run away
But then I want you to come too

You're all I could ask for
But don't know how to say
Promise me, baby, you'll never go away
And please give what I need to live
Your love
Your love
