

# That's How You Made Me Happy Again

Car Seat Headrest

That's how you did it  
That's how you made me happy again  
That's how you did it  
That's how you made me happy again

Your pensive mind clouded over your heart  
A broken past with nowhere to start  
Looking for answers, lost in the clouds  
You can hear them talking but you can't get out

How can you do it?  
How can you make anyone happy again?  
How can you do it?  
How can you make anyone happy again?

Then a sylvan beauty possessed your face  
The hue of your eyes shifted to new shades  
Like a field of roses when the sun breaks through  
Or the night's first stars coming into view  
You told me it came with a gentle touch  
There was a voice on the wind and it was whistling love  
And just like that, the air was cool and clear  
And nothing had changed except the need to fear

That's how you did it  
That's how you made me happy again  
That's how you did it  
That's how you made me happy again

Gentle persuasion tells me it's true  
The peace in me comes from the peace in you  
The kindest gift that you ever gave  
Is to love your pieces as they fall into place
