

Somewhere in Your Heart

Caravan

After the feeling has gone, some will say
You'll get along without me much the same old way
'Cause you got the strength to carry on
When everything's gone wrong
There must be some other way

I gotta dream that someday I will find
That all the answers will come clear in my mind
And when that moment comes to me
That's when I want to be
Standing with you by my side

And I wonder where you are
(I'll look for a sign)
And I wonder where you've been
(I'll wait for the time)
I wonder what we'll say
If we meet again someday
Will you find a corner somewhere in your heart?

After the evening sun comes the rain
Bringing the first kiss of hope, life again
I see it clearly in my dreams
Exactly what this means
Waiting for the chance again

And I wonder where you are
(I'll look for a sign)
And I wonder where you've been
(I'll wait for the time)
I wonder what we'll say
If we meet again someday
Will you find a corner somewhere in your heart?

In your heart
You know what I feel
In your heart
You know it's for real
In your heart
There must be a way for us

After the feeling has gone, some will say
I'll get along without you much the same old way
But that's not the way I want to be
You know what you mean to me
And what I know I mean to you

[2x:]
Is there somewhere in your heart
(I'll look for a sign)
Is there somewhere just for me
(I'll wait for the time)
Is there somewhere I could say
If we meet again someday
... (?) still somewhere in your heart?
