

# You Won't Get Me Up in One of Those

Caravan

They can fly you to the mountain  
So that you can say you've seen down to the bottom  
And for what it's worth it costs the earth  
For memories like those to say you've got em  
But if everybody flew there, and nobody flew away  
There'd be so much overcrowding  
That's they'd fall right off the edge anyway

God a jumbo jet is lovely  
If it stays there way above me in the heavens  
But if it comes down on my home town  
There'd be a mess, and awful mess around me  
And ii bet they'd charge you money  
Just to clear the mess away  
So if they weren't there in the first place  
What a peaceful life wed have everyday

So you wont get me, you sure wont  
Get me up in one of those  
No you wont get me, yous sure wont  
Get me up in one of those  
No you wont get me, yous sure wont  
Get me up in one of those  
No you wont get me, yous sure wont  
Get me up in one of those

When you say its so romantic  
All I see is lots of frantic people leaving  
They all agitate and at the gate  
They push and shove until they get their own way  
So if that's the cost of progress  
I would rather stay the same  
With my hands down in my pockets  
I will keep my feet on the ground  
All the same

So you wont get me, you sure wont  
Get me up in one of those  
No you wont get me, yous sure wont  
Get me up in one of those  
No you wont get me, yous sure wont  
Get me up in one of those  
No you wont get me, yous sure wont  
Get me up in one of those
