

Ice And Snow

Carbon Leaf

Ice and snow
Ice and snow falling in time
Together they mingle and freeze
Ice and snow
Just like the shade and the light
It's the blinding confusion
When the two of them meet

Ice and snow
Ice and snow, weary I know
But a fortress is not a reprieve
If I could melt ice and snow
Would you believe
That I would choose not to
To keep you with me

Souls in the shadows
Arms stretched to believe
Ghosts and their messengers
Sent to receive
Slip through the grasp
With the greatest of ease
Love me, just love me
'Till I rest at ease

Ice and snow
Ice and snow when it's the worst
You get the best of them both
Ice and snow
Ice and snow inside this fortress
But cold and alone
Makes no heart worthy home

Souls in the shadows
Arms stretched to believe
Ghosts and their messengers
Sent to receive
Slip through the grasp
With the greatest of ease
Love me, just love me
'Till I rest at ease

Souls in the shadows
Ice over snow
Once in a life
Just a few more to go
The start and the end
You know nobody knows
The part of life's living
When anything goes

Ice and snow
Ice and snow falling in time
Here one day
The next day it's gone
If I could melt ice and snow
Would you believe

That I would choose not to
To keep you with me
That I would choose not to
To keep you with me
