

## The Sea

Carbon Leaf

I woke up from a dream  
A white rose was floating to greet... the sea  
Morning light, race me down  
The wooden path, can't catch me now... the sea  
Will you wade with me? You and me, all alone?  
Wadin' on the sea  
I grab your toes and now I understand  
The symbol of the rose, it floats on my hand  
On this great sea strand

Hang on to me and I'll hang on to you  
Until the end, or until the day is through  
And as we float, I'll wash away that part of me  
That lures the devil in the deep blue sea

Will you always float here with me?  
I don't wanna send second-hand notes  
To you my friend, about the sea  
So we jump back into the party  
And we wade our way out past the bar  
I had not planned on going out this far

Hang on to me and I'll hang on to you  
Until the end, or until the day is through  
And as we float, I'll wash away that part of me  
That lures the devil in the deep blue sea

Hang on to me and I'll hang on to you  
Until the end, or until the day is through  
And as we float, I'll wash away that part of me  
That lures the devil in the deep blue sea

'Cause the devil has a smile  
And the devil has a smile  
And it's thorny and it's wild  
And it grows from deep inside  
And you try to swim away  
But the devil calls this play  
Deep blue sea deep blue sea deep blue sea
