Burnt to a Crisp

Carcass

Torched to a pimple Peeling skin and tissue Inflammable rectal gases Scalding your sinews

Charbroiled to blackened char Smoked, sauted and black Blistering flaking tissue Insalvageable by skin graft Fused into a mess Dribbling cartilage and fumes Your body shrivelling Your fingers beginning to prune

Burnt to a cinder Your body charred Incinerated carbon Molten as tar Smouldering ashes Scorched entrails Carbonated dust Cremated remains

Burnt to a crisp Your fat's on fire Devouring you whole Like a cadaver-stoked pyre

Charred to the bone
Your flesh is burnt
Tissues molten
Bodily gases inert
Human inferno
Blazing eruption
Evaporating marrow
Spontaneous combustion

Burnt to a crisp Your hair is singed Devouring your scalp Receding your fringe

Dripping flesh and fat
Spreads like an irritating rash
Your fingers melting
As you vainly scratch
