

## Buds And Spawn

Cardiacs

Caught in the field like a dirty great power  
Like thunder and rain  
Summonsed by nature when summonsed by name  
Safe in a house close to door hide his brain

Life there's fear there's hope all for the best  
Raw head and bloody rest might shake their bones  
To paste and glue  
Starting the beginning of me/you

Please mum and I hope that my dad means mum and I  
Hope that dad please mummy tell me to do all the  
Things I do  
All things I do

Screwing my courage to the sticking place  
Never a good race never a good race  
I hail all hail and give my life to live forever

To walk some coal and take some strain alive  
All with lovely love on my side

Waiting to see which way he will jump to find  
Which hole he's to creep into when he's old and tired  
Not expected to carry on and

When he's away day goes by day  
As his old friends die  
His hope and fears a secret for his only child  
Who's expecting and carrying on in a different style

Washed so bland via remedy man  
Stands for all that he can stand  
Throws a canker to the can  
Moults a hair putredity man  
He's a very special man  
He's a very special man

Lies to rest in difficult care  
For your pleasure to be there  
Dissolves in a bed of chair  
Reechy institutional man

Walking on fire bright  
Something is stealing his feeling again  
Lick wound he heals and still feels theres some pain  
Washing his dirt in the mud and the rain

Safe as house against a wall of air and noise  
A bucket full of everything he needs  
(Needs)

Preserver in for her and him survive  
All with lovely lovely love on their side

Moults a hair putredity man  
Squeak hard if he can

For his girl left his hand  
For sex with a man  
With a different man  
Squeak hard fatty man  
Squeak thin fatty man

Shriek and dance to a different noise  
Shriek thin fatty girls  
Shriek thin fatty boys

Girl boy world puts heads in a whirl  
Shriek thin fatty boys  
Shriek thin fatty girls

Next to take her back  
The break that never works  
And find all dust  
And the steel in my mind  
Urges me to carry on and  
Preserver in - for her and him  
Shake their bones - to paste and glue  
Starts the begininning of me and you

Shriek and dance to a different noise  
Shriek thin fat girls  
Shriek thin fat boys

Survive all with love on your lawn  
Wishing for preserver in all of your
