

Ice A Spot And A Dot On The Dog

Cardiacs

It's not the same no matter what
Constantly I find myself in hot water again
Bumping into things another twist
Knocking on the door on the see saw
And I wonder would I be missed

Do you know what I mean to say
I meant to say to you today
A day goes by I try thats why
I try to speak to you today
Pointless to assume it means the same

Everybody plays their little games
What they'd always said to me
Do you know what the things you said
You'd know I'd hoped you'd know you know
Just what they'd always said to me

But I laugh
And I cry
But I don't
Really mind
Though it seems
To be as always

Sing me lullabies
Make me close my eyes
Always seemed so frail

Can't talk to me can't talk to you
You just ignore the things I do
Bumping into things they're always twist-ing
Knocking on the door on the see saw
And I wonder would I be missed

Do you know what I mean to say
I meant to say to you today
A day goes by I try thats why
I try to speak to you today
Doggy noises coming up to me it's a crime

Everybody plays their little games you do
What they'd always said to me
Do you know what the things you said
You'd know I'd hoped you'd know you know
Just what they'd always said to me

Ice
Ice a spot
And a dot
On the dog
From the dog
Is this what we find
Meant to say to you
Nasty things you do
Make me see it through
Back round to the start

Always in the dark
It seems strange but now's the time
For me or you to certify our never coming here
