

Song Of A Dead Pest

Cardiacs

[Verse 1]

Mandy trained up her head to
Away itself go when is told
Head revealed its whereabouts
In a thicket by calling "here... I'm here!"

[Verse 2]

And in tones of deep solemnity
Pronounced that she is dead
Said she had left her torso
Too excited to listen and naked

[Verse 3]

Love gone lost of all faith in

Divine intervention flying birds on a string
Lowest neck down half of she
Scandalously flies her hawks
Outside my house

[Bridge]

She'll only go if I address her coffin
As the ship whereon she must launch
Out into eternity
And renounce all dancing
Renounce loose living
And cricket
