

## Will Bleed Amen

Cardiacs

Same thing everyone doing thee  
And don't even know if it's been planned  
They will attack and kill

Don't even think about it  
Not one of us, not one of you  
But two hundred thousand

Snapping at the arms of the big padded body with a black dog  
Gags and fills out with sock  
No longer heaven keen birdy swoop down to address its mess  
Pretends its Jesus

Missed that chance to sing  
Missed that only chance  
Dying to snatch eden  
Charm enough to choke  
All gag and bleed with gusto  
Will bleed amen

"Find no good no kind but find guilties of sins  
Sufficient enough to hang an army"

In

So in  
God save the past  
So in it makes me nothing like these  
So  
Not out  
Not sorry leaving me all not sorry I breathed

"They will attack and kill  
Attack and kill they will  
The where and the how I leave to you"

And in all this glory  
Was high as ninety was high as say  
Eats his words as they die in his mouth  
Eats his words as they  
Choke the tic as it grows  
Catchy lays of its eggs in her turfey thrill  
And lost them on her lawn  
Wishing could brush them all aside  
But still

So be it all lucky charm  
Enough to choke  
All bleed and all gag with gusto  
Will bleed amen
