```
I live, I breath, I walk,
I conquer and I....
I am, I win, I take,
I hunger and I...
Watch the pieces of my life
Falling in place as I march them
through the motions
Power, just absolute power
Building the tower
The hands of a god
Power, a justified power
Seizing the hour
The hands of a god
My time, my path, my land,
My kingdom and my...
My will, my deeds, my still,
My focus and my...
Change to carve myself in fire
Burning my name on the pages of the
legends
(Know me, know me....)
It's payback time
All that I have learned
All that I design
All the things you thought
you could just burn
Forever mine
```
