

Falconeye

Cardiant

There is no tailwind on this flight to nowhere
Ten thousand miles behind and yet to soar
With my falconeeye,
You made it worth of carrying on

Somewhere that road became a cul-de-sac
At that time I realized my dreams weren't there
With my falconeeye,
To the last I tried to turn alright

Take the sight to the night,
I will never dream again
Whisper changes my lifetime

With my falconeeye, With your falconeeye
With my falconeeye I have seen my rope
end to the wrong aim

If I just could accept my loss at this game
For now I'm foreign with no will to live
With my falconeeye,
You made it worth of carry on

Take the sight to the night,
I will never dream again
Whisper's truly in my heart
Make this thought to come true
We are burning the bridge behind
Can't go on or reappear

With my falconeeye, With your falconeeye
With your falcon eye,
you made it worth of carry on
