

## Fire On Ice

Cardiant

Out of reach but too close to see, I've always wondered why  
The scars closed my heart and if this is the sign, to move on  
Heading for lights and I taste no fear, the winds are always with me

Because of these reasons I gave up my past, all the way  
They're singing ''whoah'' in the light of the stars  
They're singing ''whoah'' and the world's here tonight

Fire on ice - and time's running out  
And I am waiting for signs  
Fire on ice - and we're making sounds  
Breaking the silence tonight!

Hear my voice and the lightning strikes, now the sound is faster than light

Because of these reasons we came here to rock, all night  
They're singing ''whoah'' in the light of the stars, once again

They're singing ''whoah'' and the world's here tonight!

My heart is beating and I feel the rush, the rhythm gets stronger in me

A part of my soul is craving for more, always...  
They're singing ''whoah'' in the light of the stars  
They're singing ''whoah'' and the world's here tonight...

Fire on ice - and time's running out  
And I am waiting for signs  
Fire on ice - and we're making sounds  
Breaking the silence tonight!  
Fire on ice - the time's run out  
Now the sound is faster than light  
Because of these reasons we came here to rock, all the night!
