

# Heaven's Calling

Cardiant

I can play with the fire  
And keep the flame in the rain  
But your heart and your soul I'm not able to win

I am dealing with the Devil  
By giving an eye for an eye  
I'm afraid by tonight it'll be over

When you're 'lone at night  
Please turn on the lights for me  
And I'll be there for thee  
It's an easy way out  
It's an easy way out from here

I lift my gaze into the sky  
Heaven's calling!  
Thought I have one more life to go  
It's a collect call!  
I thought my time has yet to come

I was born under blank stars  
Drew my star chart by myself  
Roaring thunder came out of the blue!  
Won't leave behind no broken path  
Cause things I want to retain  
Are with me now and forever

When you're 'lone at night

Please turn on the lights for me  
And I'll be there for thee  
It's an easy way out  
It's an easy way out from here

I lift my gaze into the sky  
Heaven's calling  
Thought I have one more life to go  
It's a collect call!  
I'd rather fight against the time  
Heaven's calling!  
I veil my soul in all of my glory  
Cause tonight heaven's calling me

When you're 'lone at night  
Please turn the lights for me  
And I'll be there for thee  
It's an easy way out  
It's an easy way out from here

Tonight I am all alone my friend  
This night is final for the moments I've roamed

I lay my gaze into the sky  
Heaven's calling!  
Thought I have one more life to go  
It's a collect call!!  
No use to fight against the time

Heaven's calling!  
I thought I had more life to go  
It's a collect call!  
No use to fight against the time  
Heaven's calling!  
I veil my soul in all of my glory  
Cause tonight heaven's calling me  
  
It's calling me!
