

## While the Ice Is Cold

Cardiant

Deep in your eyes I see pain  
Though you still remain  
Watching me, silently  
How could I understand

And what can I say  
To you on this day  
This silent goodbye  
Gives me a sign  
I belong here no more

Talk to me  
Don't shut me out, please!  
You have to know  
You don't have to face this alone  
I am here, just let go of your fear  
While the ice is cold let the memories unfold

Oh, I have tried  
To stay by your side  
But I know you must  
Deal it in your own way

Talk to me  
Don't shut me out, please!  
You have to know  
You don't have to face this alone  
I am here, just let go of your fear  
While the ice is cold let the memories unfold

Talk to me before it's too late  
While the ice is cold you don't have to face this alone
