

Long Live The Underground

Career Soldiers

Punk has got me through the darkest days
Through the times when I wanted to die
This is so much more than a phase
It's what I live for and who I am inside

Punk has saved me from suicide
This sound is what keeps me alive

Long live the underground
And this punk rock sound
This one's dedicated to underground kids
Who keep the scene alive through thick and thin

It's been a fucked up day
So I'll grab my board and go skate
Put my headphones on
Suddenly everything feels okay
