

Magpie

Caribou

It's been five years since you've been gone
And now, oh how the time has passed me by
But sometimes it's as though you're with me now
I think about you all the time

Generally all she's got's so down
Something's got to give to turn things 'round
Generally all she's got's so down

And now the world's been catching up to you
And you have gone before your time
So much has changed, so much is new and now
And yet it's still so high to climb

Generally all she's got's so down
Something's got to give to turn things 'round
Generally all she's got's so down

Generally all she's got's so down
Something's got to give to turn things round
Generally all she's got's so down
