

## Never Come Back

## Caribou

And you never come back  
And you never come back to  
And you never come back  
And you never come back to  
And you never come back  
And you never come back to  
And you never come back  
And you never come back to

[illegible]

And you never come back  
And you never come back to  
And you never come back  
And you never come back to  
And you never come back  
And you never come back to  
And you never come back  
And you never come back to

I can never forget it  
 Promise me that you don't regret it  
 You and I were together  
 Even though we both knew better

[illegible]

I can never forget it  
Promise me that you don't regret it  
You and I were together  
Even though we both knew better

And you never come back  
And you never come back to  
And you never come back  
And you never come back to  
And you never come back  
And you never come back to  
And you never come back  
And you never come back to

I guess I need you  
I never know [?]  
To help believe you [?]  
Follow you  
I guess I need you  
I never know [?]  
To help believe you [?]  
Follow you
