

Over Now

Caribou

What do you say
Maybe time will wash the pain away
It's over now
You can take it as you want to now
Get over her
There's nothing left to hurt you now

What can you say
Maybe love can wash the pain away
It's over now
You can take it as you get it now
Get over her
There's nothing left to hurt you now

What can you say
Maybe time will wash the pain away
Get over her
There's nothing else can hurt you now

It's over now
You can take it as you want to now
Get over her
There's nothing left to hurt you now

What can you say
Maybe love can wash the pain away
It's over now
You can take it as you want to now
There's nothing left to hurt you now

There's nothing left to hurt you now

Nothing else can hurt you now
There's nothing left to hurt you now
There's nothing left to hurt you now

Nothing else can hurt you now
There's nothing left to hurt you now
There's nothing left to hurt you now

It's over now
It's over now
It's over now
