

## **Sister**

**Caribou**

Sister, I promise you I'm changing  
You've heard broken promises I know  
If you want to change it you must break it  
Rip it up and something new will grow

Brother, you're the one that must make changes  
No one else can do it if you don't  
Surely you'll have noticed things are changing  
I can't do it all on my own
