

Low Budget Slow Motion Soundtrack Song for the Leaving Scene

Carissa's Wierd

how long will you be gone
how soon till you'll come home
where is your sweetheart
who shelters her from the cold now
absence only made our hearts grow colder
I will be waiting
I'll just keep waiting for you
will you remember the feelings and colors
bad dreams comforted by warm arms that held you so close
will you regret everything that you said
or will you hold it close to your heart
cause I will be waiting
I'll just keep waiting hold on
so close, hold on
absence only made our hearts grow colder
I will be waiting, I'll just keep waiting for you
