

Just One Kiss

Carl Carlton

When the lights are down low
I can feel your eyes, baby
All I could do was think about you, baby
Over, over, over and over and over again, ooh
Thought I could make it on my own
I was a fool to go
I saw the sights, I wasted lonely nights
There were times, when I felt like crying

Just one kiss, baby, ooh
How good it feels
I'm yours for the asking
Just one kiss, baby, ooh
Takes me away, I'm lost in your heaven

Why did I leave you alone
Pretending I was the king
And you know I'm the king, baby
The thoughts of my life
Cuts me like a knife
And just when I thought I was dying

Just one kiss, baby, ooh
How good it feels
I'm yours for the asking
Just one kiss, baby, ooh
Takes me away, I'm lost in your heaven

Just one kiss, baby, if I could have
Only your lips next to mine
(How good it feels) real close, real close
(Just one kiss) girl, if I could love you all over, oh
Give me, give me, give me, yeah
(Takes me away) give me your lips, baby
Kiss me from my head to my toes (in your heaven)
(Just one kiss) Just, just love me, ooh just love me
Just love me, baby
And oh, you'll never find a man (how good it feels)
That'll kiss you like I do
Give you all the love you want
(Just one kiss) just ooh...
Baby, baby, baby, give me one kiss from your lips
(Takes me away) baby, I'm the man for you
(In your heaven) girl, give me all...

Give me all your lovin' (just)
Make me feel like a real man (just one)
Let me kiss you on your pretty, pretty lips, baby
Ooh, you got the softest lips I've ever had
Love me, love me, love... ooh, oh...
Ooh baby, just give it all to me
Just one kiss, oh, from your lovin' lips
Let me love you
Tonight's my night, me and you
Ooh baby...
