

# Your True Love

Carl Perkins

True love (your love)  
True love (your love)  
True love, baby  
That's what you give to me

True love (your love)  
Your love (your love)  
True love, baby  
That's what you give to me

God made the world  
And he made it round  
I got my baby  
And I'm glad I found

Her love was meant for me  
And my baby, she'll always be

She gives me true love (your love)  
True love (your love)  
True love, baby  
That's what you give to me

Uh, true love (your love)  
Your true love (your love)  
True love, baby  
That's what you give to me

True love (your love)  
Your love (your love)  
Your love, baby  
That's what you give to me

Love was made, I don't boast  
When He made you, He made the most  
You've got that certain touch  
To me, baby, you mean so much

You give me true love (your love)  
Your true love (your love)  
True love, baby  
That's what you give to me  
Well, all right

True love (your love)  
Your true love (your love)  
True love, baby  
That's what you give to me

Well, the big  
The little, young and old  
They all need something  
To have and hold

When I found you, I found that  
You gave me loving I can't forget

You gave me true love (your love)  
Your true love (your love)  
True love, baby  
That's what you gave to me

Your true love, baby  
That's what you gave to me
