

Fallin'

Carla's Dreams

I'm fallin'
Feeling insane when you're around
You know I do, you know I do, you know I still love you
I keep on fallin'
Keep on falling down and I'm feeling blue
And i need this opposite of you
'Cause I still love you

Shady games of love
Certainty that fades
We are bound to lose
No one wins the race
Feelings that I might never have again for you
(For you girl, for you girl, for you my girl)

Shady games of love (love)
Certainty that fades
We are bound to lose
No one wins the race
Feelings that I might never have again for you
(For you girl, for you girl, for you - for you, my girl)

I keep on fallin' (Fallin' down)
They stop me down so I can't get you my love
So I can't get you, my love
Why don't you call me?
When you're walking down the streets at night
When you're all alone home tonight
Burning out my energy
Wanna be with you, so girl, call me

Shady games of love
Certainty that fades
We are bound to lose
No one wins the race
Feelings that I might never have again for you
(For you girl, for you girl, for you my girl)

Shady games of love (love)
Certainty that fades
We are bound to lose
No one wins the race
Feelings that I might never have again for you
(For you girl, for you girl, for you - for you, my girl)
