

## Bring Love

Carlene Carter

He said settle down cowgirl  
Let me tell how its gonna be  
You and me, leave that suitcase packed for the sorrow  
I'ma take you home to Tennessee to your family  
Said my chariot awaits to carry me out of these gates  
Of this prison we been living to long

Just bring love, thats all your gonna need  
Bring love, bring your love to me

I said lookey here cowboy  
I always got a lot to say  
And then I said, OK  
We set our sights on the brightest star  
Left L.A. headed east across New Mexico  
And took it slow

Dust the paths of my past of life don't live to fast  
I'll be going with my Joe lead the way

He said settle down cowgirl  
Let me tell how its gonna be  
You and me, as the sun set behind us in Jackson  
Two well traveled souls headed home  
Back home, I said tell me again what I need to begin  
To live a life in the light of your love

Bring love, thats all your gonna need
