

# The Lucky Ones

Carlene Carter

We are the lucky ones, we know the truth  
Our daughters and sons just like us in our youth  
Generations before us watch over from above  
Filled us with faith and they showered us with love

My girl's like her mama, loves with all her heart  
And my son keeps me smilin' when life seems too hard  
Lucky that we have their love 'cause some can only dream  
So I never take for granted what I know means everything

We are the lucky ones  
We are the lucky ones

We are the lucky ones, we know the score  
There's you and there's me and those fools at our door  
They want what we have but they don't understand  
It's a secret that keeps us still holdin' hands

We are the lucky ones  
We are the lucky ones  
We are the lucky ones  
We are the lucky ones

Time keeps on tickin' while we watch the clock  
We learn from mistakes, yeah, we've been around the block  
The way that this cruel world turns some upside down  
It's amazing to me that we're still hangin' 'round

Strange as it seems I live my life like some sweet dream  
One day I'm flying through the air, next I'm danglin' by a string  
Tell me, am I walkin' on coals or treadin' on thin ice?  
To have a little heaven here on earth, well, hell I'll pay the price

We are the lucky ones  
We are the lucky ones  
We are the lucky ones  
We are the lucky ones

We are the lucky ones  
We are the lucky ones  
We are the lucky ones  
We are the lucky ones

Lucky ones, lucky ones  
(We are the lucky ones)  
Lucky ones, lucky ones  
(We are the lucky ones)

Lucky ones, lucky ones  
(We are the lucky ones)  
Lucky ones, lucky ones  
(We are the lucky ones)  
We are the lucky ones
