

# Beautiful Way

Carly Goodwin

You walk through life  
On a natural high  
You throw your dreams in the air  
On the chance that one might fly  
And I don't know how  
But you keep me young  
And if I had to choose one friend you'd always be the one

(Chorus)

You've got a beautiful way  
Of seeing the sun through the rain  
(You've got a beautiful way)  
Of bringing a smile to my face  
(You've got a beautiful way)  
About you

You show the world  
A wide open heart  
You're in love with being alive  
And that's what sets you apart  
I laugh when you laugh  
You cry when I cry  
I feel like a star on the stage in the spotlight of your eyes

(Repeat Chorus)

About you

You see each day as one more chance  
To wrap your arms around the world  
And dance

(Repeat Chorus)

You've got a beautiful way  
You've got a beautiful way  
You've got a beautiful way  
You've got a beautiful way
