

# Until Then

Carly Goodwin

They say the stars are bound to fade  
Heaven and earth will pass away  
I'm gonna love you until then

When all the seasons stay the same  
No turning leaves no summer rain  
I'm gonna love you until then

(Chorus)

I will give you my last breath  
The very heart out of my chest  
I'll be yours until the very end  
And I'm gonna love you until then

The future lies behind a veil  
And what it holds well who can tell  
I'm gonna love you until then

Someday you may tire of me  
And I'll just be a memory  
But I'm gonna love you until then

(Repeat Chorus)

I'm gonna love you  
I'll take care of you  
I'm gonna love you until then
