

Everything He Needs

Carly Rae Jepsen

He's strong, not want to settle down
You know he's that guy
Electric, those lips can wear me out
Well, I think he's all mine

It's crazy, but when he can't sleep I understand
Like pressure points, my love can ease him in my hand
'Cause (He needs me)

He needs me, he needs me
He needs me, he needs me
He needs me, he needs me
(I got everything he needs)
(He needs me)
He needs me, he needs me
He needs me, he needs me
He needs me, he needs me
(I got everything he needs)

Soft rain (Soft rain)
We roll the windows down
Sweat disco all night
It's clear (It's clear)
We'd like to fool around
His hands reach for mine

I know it's tough
Baby, keep both eyes on the road
A right, a burnt-out streetlight, only halfway home
(He needs me)

He needs me, he needs me
He needs me, he needs me
He needs me, he needs me
(I got everything he needs)
(He needs me)
He needs me, he needs me
He needs me, he needs me
He needs me, he needs me
(I got everything he needs)

Can never give him enough
Enough of my love, enough of my love
Enough of my
I can never give him enough
Enough of my love, enough of my love
(He needs me)
Can never give him enough
Enough of my love, enough of my love
Enough of my
I can never give him enough
Enough of my love
(He needs me)

You know, not just physically
Emotionally, spiritually, intellectually, sexually
All the ways

He needs me, he needs me
He needs me, he needs me
He needs me, he needs me
(I got everything he needs)
(He needs me)
He needs me, he needs me
He needs me, he needs me
He needs me, he needs me
(He needs me)
(I got everything he needs)

Can never give him enough
Enough of my love, enough of my love
Enough of my
I can never give him enough
Enough of my love, enough of my love
(He needs me)
Can never give him enough
Enough of my love, enough of my love
Enough of my
I can never give him enough
Enough of my love, enough of my love
(He needs me)
