

Marchin' and Movin'

Carman

Marchin' and movin'

Marchin' and movin'

Marchin' and movin'

We're marchin' and movin' onward and upward

The kingdom of God is on a forceful attack

We are takin' dominion over the darkness

Tearin' down the works of the enemy's hands

We're marchin' and movin' onward and upward

The kingdom of God is on a forceful attack

We are takin' dominion over the darkness

Tearin' down the works of the enemy's hands

We've got the victory

We've got the victory

We've got the victory

By the blood of the Lamb

We're marchin' and movin' onward and upward

The kingdom of God is on a forceful attack

We are takin' dominion over the darkness

Tearin' down the works of the enemy's hands

There's a war that we're ragin' 'bout givin' our praises

To the Holy One who sits high upon the throne

He's dispatchin' and marchin' those angels to demons

And all the while His children just keep on marchin' on, yeah

We've got the victory

We've got the victory

We've got the victory

By the blood of the Lamb

Here we go

Here we go

Here we go

Here we go

Marchin' and movin' a song, a sword, and God's command

Marchin' and movin' kick it up, kick it out, 'cross the land

Marchin' and movin' a song, a sword, and God's command

Marchin' and movin' kick it up, kick it out, 'cross the land

Talkin' about a war time, chore time, your time

Listen up, toughen up, here's the plan

We're praying through, staying through, blowing through, going through

Moving through, pushing it back, darkness, by God's hand

So strong, right, and wrong, in the battle, we belong

Got our orders ready to fight

We're understanding, comprehending, by the Holy Ghost commanding

Yo, it's time to make it right

We've got the victory

We've got the victory

We've got the victory

By the blood of the Lamb

We're marchin' and movin' onward and upward

The kingdom of God is on a forceful attack

We are takin' dominion over the darkness

Tearin' down the works of the enemy's hands

We're marchin' and movin' onward and upward

The kingdom of God is on a forceful attack

We are takin' dominion over the darkness

Tearin' down the works of the enemy's hands
