Carman

We can't contain what's inside
Thunder and lightning can't hide
Freed from the past, destined to win
Taking the gospel where it's never been

We're on, we're on, we're on a mission
And we'll go where the brave dare to fly
We're on a mission and we know
It's a race, do or die
To know Him and make Him known is our creed
Letting the fire be freed, Mission 3: 16

We don't know what we will find
Deep behind enemy lines
We are the called, we are the few
Ready to serve Him and willing to do

We're on, we're on, we're on a mission
And we'll go where the brave dare to fly
We're on a mission and we know
It's a race, do or die
To know Him and make Him known is our creed
Letting the fire be freed, Mission 3: 16

He did not come into the world
But to save us
He came so He could set us free
Not enslave us

Freely we received

Freely we must give

The message of salvation to live

Yes, to live

We're on, we're on, we're on a mission

And we'll go where the brave dare to fly

We're on a mission and we know

It's a race, do or die

To know Him and make Him known is our creed

Letting the fire be freed, Mission 3: 16
