

Red, White and Blue

Carman

Let nothing separate us
Let nothing here divide
Let nothing come between
The bond we have inside
Let the black and white unite
With the yellow and the brown
Together we will stand and fight
Til the enemy comes down

(Chorus)

I know the red and white and blue will last forever
There's nothing that America can't do
I said I'll fight with you and stand together
Somewhere between the red, the white, and blue

There's me and you
They may come against us
Come from far and wide
We will not be defeated
'Cause God is on our side
We can't forget the families
The daughters and the sons
We owe them now to make it right
We won't stop until we've won

(Chorus)

We will not backdown
We will not lose ground
We will never fall
We're America
America!
