

## Shine Through Me

Carman

Lord I stand before a world that's dying  
Under Satan's sinful control  
His hands are at our country's throat  
Trying to destroy each note  
Of the songs of love the Scriptures wrote  
Lord I really wanna be your witness  
To see set free those captive to sin  
Though I have the gift of prophecy  
And understand all mysteries  
Without your love my light is dim  
My light is dim

Let the light of Your word light my pathway  
Let the love of Jesus flow through me  
It's the love of God that draws the wayward children back to Ca  
lvary  
They're in my heart they're all I see  
They're like kidnapped royalty  
But I can win them if Your love will shine through me

Lord help me not to demean or judge them  
But birth in me a burden for their souls  
Were it not for grace and Calvary  
This hurting child could be me  
How will they know unless they're told  
Unless they're told

Let the light of Your word light my pathway  
Let the love of Jesus flow through me  
It's the love of God that draws the wayward children back to Ca  
lvary  
They're in my heart they're all I see  
They're like kidnapped royalty  
But I can win them if Your love will shine through me
