Do u recall that night  
When u and me were lost in each others eyes  
Feeling tipsy u had ur hands in mine  
U made me feel a way I can't forget your smile  
No what's love gotta do with it  
Diamond rings and everything  
May have had a bit too much  
I'm addicted to your touch  
I can't be myself girl  
When not around

You know that this is dangerous  
Temperature is rising it's burning up  
I'm charged up yea I'm beaming up  
We drop the top they ain't seen enough  
Big up big up  
U looking all nice when we linking up  
Yea mix up mix up  
I ain't gon' lie girl u fill me up  
U pick up pick up  
So we can burn all desires tonight  
You know it's alright
