

Headlock

Carnage

Ten toes touch road
When the war came home
Blowing out smoke like a saw
Molly, it made her unfold
People they coming and go
Familiar faces won't show
When they see you got places to go
Independent selling out all of my shows
Ten toes touch road
When the war came home
Blowing out smoke like a saw
Molly, it made her unfold
People they coming and go
Familiar faces won't show
When they see you got places to go
Independent selling out all of my shows

Party inner state
Need a getaway
Feels like any day
I'm 'boutta detonate
I got energy
I got enemies
They like jealousy
Lived a fantasy

Chandelier, white wine
Dinner table with the boss
Become yourself in the night
Exterminate all the tox's
Fake bitch, detox
If I fall, shake it off
Whole game, headlock
If I want, then I got

You forgot that she a thot
She's YOLO angel
That guap a lot, we chasin' that
From every angle
Pray my name live for ever, ever
I feel Like Van Gogh
Two bands on the Gucci sweater
That's ten bills, ten toes

Ten toes touch road
When the war came home
Blowing out smoke like a saw
Molly, it made her unfold
People they coming and go
Familiar faces won't show
When they see you got places to go
Independent selling out all of my shows
