

## Healing

## Carnage

I swear  
Don't wanna hurt myself no more  
I don't get it  
Nobody tells me that I'm hurt, enough  
Always tryna turn it back  
But its a new day  
That I don't don't don't  
Don't wanna hurt myself no more

(I'm healing...)

I came out tonight and I wanna go home  
I'd rather spend some time on my own  
I can't stand small talk nobody's real  
I look okay but that's just not how I feel  
I said some things I should've said more  
My words were right your jaw hit the floor  
I wish I said what I thought I said before  
What I thought I said before  
What I thought I said before...

(I'm healing...)

(I came out tonight and I wanna go home  
I'd rather spend some time on my own  
I can't stand small talk nobody's real  
I look okay but that's just not how I feel  
I said some things I should've said more  
My words were right your jaw hit the floor  
I wish I said what I thought I said before  
What I thought I said before  
What I thought I said before)
