

Together

Carnage

We learned... That's late and devastate
Heaven knows how many days
Unless somethings in my ending
We grow... back and forth destiny
Guess we fought the fun and games... again... again

Where will we see
Where will we see
Where will we see
Each other again
Each other again
Alone... together
Alone... together
Alone... together
Uno... two... trece... four

We go... to resonate to elevate
To think about the younger days
How everything was simple then
It's old
Over and now and we can change
It's up to you and me again... again... again

Where will we see
Where will we see... each other again
Alone... together
Alone... together
Alone... together
Alone... together
Alone... together
Uno... two... trece... four
