

Wait For Me

Carnage

(Wait, what am I doing?)

Go now, don't wait for me
I won't give what you need
And when the winter rolls in
I will send you all the rest of my love
And when the winter rolls in
I will send you all the rest of my love
Don't wait for me (Yeah)
Don't wait for me
Wait, no, wait, no, wait, yeah
Don't wait for me
Yeah

Don't wait for it
Set a time or date for it
Set a time and place for it
Don't look back, just face for it
We been through it, last night got into it
Your friends say don't say sorry, stay here let him do it
They say steer away from me
They still have hate for me
They say keep doing you
Don't think about me, don't pray for me
Know the deal, do your research and a case study
All he do is cheat, at least he did that faithfully

Go now, don't wait for me (Don't wait for me)
I won't (I won't), give what you need (I can never do that)
And when the winter rolls in
I will send you all the rest of my love
And when the winter rolls in
I will send you all the rest of my love
Don't wait for me (Yeah)
Don't wait for me (You know)
Don't wait for me (Yeah!)

Win some, you lose some
Some things you can't run from

Cuz I've been fed up before
Down can't get up before
One foot let out the door
No clue what I've been doing
But now I got clarity, no favors, no charity
I know it's where things ain't always what they appear to be

Go now, don't wait for me (Haha, uh)
I won't, give what you need (Okay)
And when the winter rolls in
I will send you all the rest of my love
And when the winter rolls in
I will send you all the rest of my love
Don't wait for me (Yeah)
Don't wait for me (You know)
Don't wait for me
Don't wait for me

Do-do-do-do-don't...
