The Other Side

Carnal Forge

Broken hopes in a world of lies

It makes me blind as it penetrates my eyes

No escape from their morbid minds

Release me from this pain

Release me from this pain

Now i see the other side Emptiness and despair Crushed my head into a wall In a desperate try to die

In a desperate try to die

Just throw you shit into my face There's no hope for human race Deny your lies Deny the truth Refuse me existence

Now i see the other side Emptiness and despair Crushed my head into a wall In a desperate try to die

Deny your lies Deny the truth Refuse me existence

Just throw you shit into my face There's no hope for human race Deny your lies Deny the truth Refuse me existence

Now i see the other side Emptiness and despair Crushed my head into a wall In a desperate try to die

In a desperate try to die

Broken hopes in a world of lies
It makes me blind as it penetrates my eyes

Now i see the other side Emptiness and despair Crushed my head into a wall In a desperate try to die

Deny your lies Deny the truth Refuse me existence
