

Bleed More

Carnifex

Cessation of suffering is the path to lumination
Circles of death, a cycle of exhaustion
Disease-like condition, the road to enrichment
Wash away the ashes of existence
The truth is you cannot end your suffering

Embrace the truth
Embrace the pain
This is our violent reality
There are four noble truths
Death, birth, life, death

Taste the scythe
Bleed out your lies
Stripped of your disguise is where the truth hides
A hundred hollow souls behind empty eyes

Illness ends when you understand cause
Pain ends when you understand truth
This is our cycle, this is our meaning

Bleed more
Down on your knees, only for thee
This isn't what you were waiting for
Bleed more
Graves and worms, what we deserve
Haven't you been listening?
Bleed more
No one said this wasn't going to hurt
Bleed more

Cessation of suffering is the path to lumination
Circles of death, a cycle of exhaustion
Disease-like condition, the road to enrichment
Wash away the ashes of existence
Wash away the ashes of existence

Now cry out to the unknown
Man was meant to suffer
Our lives know no other
Man was meant to suffer
Our lives know no other

Bleed more
More
Circles of death, bleed for me
Bleed
This is the death we all deserve
Bleed
Let our lungs breathe no more
