

# Bury Me in Blasphemy

Carnifex

God of death can you hear me  
Screams and cries of your lost children  
Breathe death into me

Breathe death into me

Summon death from the mouth of the grave  
Let them bleed, let them writhe, let them pray

Cast a spell upon the ocean  
Watch the waves become flames  
Cover the earth in fire and cinder  
Absolution through the endurance of pain

A world painted black by death's own hand  
Unholy undead reign hell upon the land  
Bury me in blasphemy  
A crown on a head filled with lies  
Eternal lost souls, servants to the night  
Bury me in blasphemy

Hand in hand we all die together  
The end of all life dead forever

No rest for the soulless  
No rest for the soulless

Cry to the heavens as hell descends  
Saints might forgive but they'll never forget  
Aeons of death, armies of the condemned  
Mass grave burials, bringers of the end

No rest for the soulless  
No rest for the soulless

Endless graves blessed with damnation  
Ravens shroud a blood soaked throne  
The end of salvation  
Dead in the arms of the unholy ghost

Cast a spell upon the ocean  
Watch the waves become flames  
Cover the earth in fire and cinder  
Absolution through the endurance of pain

A world painted black by death's own hand  
Unholy undead reign hell upon the land  
Bury me in blasphemy  
A crown on a head filled with lies  
Eternal lost souls servants to the night  
Bury me in blasphemy

God of death can you hear me  
Screams and cries of your lost children  
No rest for the soulless

God of death can you hear me

Screams and cries of your lost children  
No rest for the soulless
