

# COLD DEAD SUMMER

Carnifex

Carved in stone  
Its tombstones for us all  
It looks like the road to hell  
But I don't know where it goes  
Painted in blood  
I gave my soul but it wasn't enough  
Time grows life just to kill love  
Painted in blood but it's never enough

Now we rot in the summer sun  
Dreaming of oceans, oceans of blood  
Now we rot  
Now we rot in the cold dead summer sun

This is where you lay down  
I'll prepare you for your grave now  
Close yourself inside your casket

Sometimes I want to go back  
To stand with the dead everyday  
When grief left them with nothing to say  
Somber silence went on for days  
I can still hear them pray  
They all sounded the same  
And they didn't change a thing

I thought you wanted to see blood  
I thought you cut just because  
Death in repose  
These are brand new lows  
Death in repose

Suicide pact with all my demons  
I'm going to free them  
Finally you'll see them  
Too many skeletons for one man's closet  
Too many demons with their claws in  
I have death in my heart right now  
I'm ready to go and I don't care how

Now we rot in the summer sun  
Dreaming of oceans, oceans of blood  
Now we rot  
Now we rot in the cold dead summer sun

Sometimes I want to go back  
To stand with the dead everyday  
When grief left them with nothing to say  
Somber silence went on for days  
I can still hear them pray  
They all sounded the same  
And they didn't change a thing

I thought you wanted to see blood  
I thought you cut just because  
Death in repose  
These are brand new lows

Death in repose

Utopis, the land that can not be  
There's no heaven above the earth  
There's no hell below the dirt  
Death is all that waits for you and me
