

## COLLABORATING LIKE KILLERS - Graveside Edition

Carnifex

I'll make you suffer alone  
And make you think it was meant to be  
I'll rip apart your soul  
And make you think it was meant to be

Close, close your eyes  
And breathe my  
Breathe my  
Breathe my lies

Collaborating like, like killers  
Collaborating like killers  
Collaborating like, like killers

All the beauty you'll never see  
All the things you'll never be  
Never be

Collaborating like killers  
Collaborating like killers  
Like killers  
Collaborating like killers

Collaborating like killers

All the beauty you'll never see  
All the things you'll never be
