

Cursed

Carnifex

I have death tattooed on my soul
A thousand years of past lives etched in stone
I have the keys to all the locked rooms
Put me inside so you don't have to
All those secrets so far down
I can get in but I can't get out

They spoke in tongues and put their spells on me
Shadows in the afterlife held by ethereal entities
Death will find you and you will suffer
Antithesis of life, bereft of lovers

Break the curse
Death take me first

I have death tattooed on my soul
A thousand years of past lives etched in stone
All those secrets so far down
I can get in but I can't get out

Cursed
I think I've been cursed
Fucking cursed

Alchemy
Their whispered words a weapon that kills with ease
Necromancy
Conjuring our separation from reality

Alchemy
Necromancy
All these ghosts, they don't want to be free
It's death that's really obsessed with me

Break the curse
All these voices, they're only getting worse
Death take me first
Inside it's past lives and it fucking hurts

I play with guns
I play with knives
I don't give a fuck anymore
Anything that leaves a scar behind

Break the curse
Death take me first

I have death tattooed on my soul
A thousand years of past lives etched in stone
All those secrets so far down
I can get in but I can't get out
I have death tattooed on my soul
A thousand years of past lives etched in stone
All those secrets so far down
I can get in but I can't get out

Cursed

I think I've been cursed
Fucking cursed

Lie to me, stab me in the back
End it all for me, get your last laugh
Cursed
Cursed

Lie to me, stab me in the back
End it all for me, get your last laugh
Cursed
I think I've been cursed
Fucking cursed
Cursed
