

Dark Days

Carnifex

My grave has never looked as sweet as tonight,
Blood, death, depression
This is goodbye.

No one needs to know,
I'm letting this world go
It hurts to think what could be,
No one needs to know but me

Truth be told, I'm better off letting go
The world is a gun that is held to my head
Every dream I have, I wake up dead

We all have dark days, for me the darkness stays
I have one wish, let me forget the hell I'm in. (2x)

I am alive in my grave (2x)
A lost soul, no god can save

We all have dark days, for me the darkness stays
I have one wish, let me forget the hell I'm in. (2x)
Truth be told, I'm better off letting go
