

# Infinite Night Terror

Carnifex

Parasomnia  
Night demons at my feet  
I can feel their breath in the darkness

Crawling through my dreams  
Keeping me from sleep  
Predatory instinct comes alive at night

Survive the insanity  
You will never take me alive  
Fight to survive  
Live through the night

Face to face with death in the dark  
Daylight is just another hour away  
Survive the night, I'm not dying today

Infinite night terror  
Break this curse of insanity  
Infinite night terror  
Live, die, repeat

Eyes in the shadows and they're haunting me  
Eyes in the shadows dying to be free  
One of us isn't making it  
But it won't be me  
It won't be me

Night after night, it all feels familiar  
This living hell is all I remember  
This living hell is all I remember

Infinite, night terror  
Break this curse of insanity  
Infinite night terror  
Live, die, repeat  
Live, die, repeat  
Live, die, repeat  
Live, die, repeat

Chase the setting sun and it's endless rays  
Once nightfalls, no one is safe  
Moonlight only creates shadows  
Everywhere I go, darkness follows  
Everywhere I go, darkness follows
